

# ARC 10 YEARS OF HOPE

REBUILDING LIVES AND MAKING COMMUNITIES SAFER

## THE ANTI-RECIDIVISM COALITION (ARC)'S MISSION IS TO END MASS INCARCERATION.

ARC empowers formerly and currently incarcerated people to thrive by providing a support network, comprehensive reentry services, and opportunities to advocate for policy change. The long lasting impact of our work is safer, healthier, and more whole communities.

What makes ARC unique is our 360 approach: we help individuals from the time they enter the criminal legal system to everyday support after reentry.

## A VISION FOR THE NEXT 10 YEARS

We recently celebrated our tenth anniversary and are immensely proud of our achievements and continued impact of our mission. As we look to the next ten years, we remain steadfast on continuing to build on three core initiatives:

### Prevention work

ARC is emphasizing preventive care so we can stop individuals, especially our youth, from entering the correctional system. The goal is to enhance our team's ability to provide support and guidance during these transitional periods which has a profound impact on keeping individuals from continuing down a harmful path – for both themselves, their families, and their communities.

### Enhanced housing and ARC Hub

Providing housing to those in need has a major impact on the ability to help individuals successfully reenter society post-incarceration. The goal is to acquire more housing facilities across the state of California and build an ARC Hub for Members to have a safe place to thrive and receive the support they need.

### Replicate in other jurisdictions

ARC's success in California can and should be replicated nationwide. The goal is to reach into other jurisdictions and provide a roadmap with playbooks for other organizations and states to follow. This includes empowering youth to spearhead and participate in legislative work and advocacy programs.
